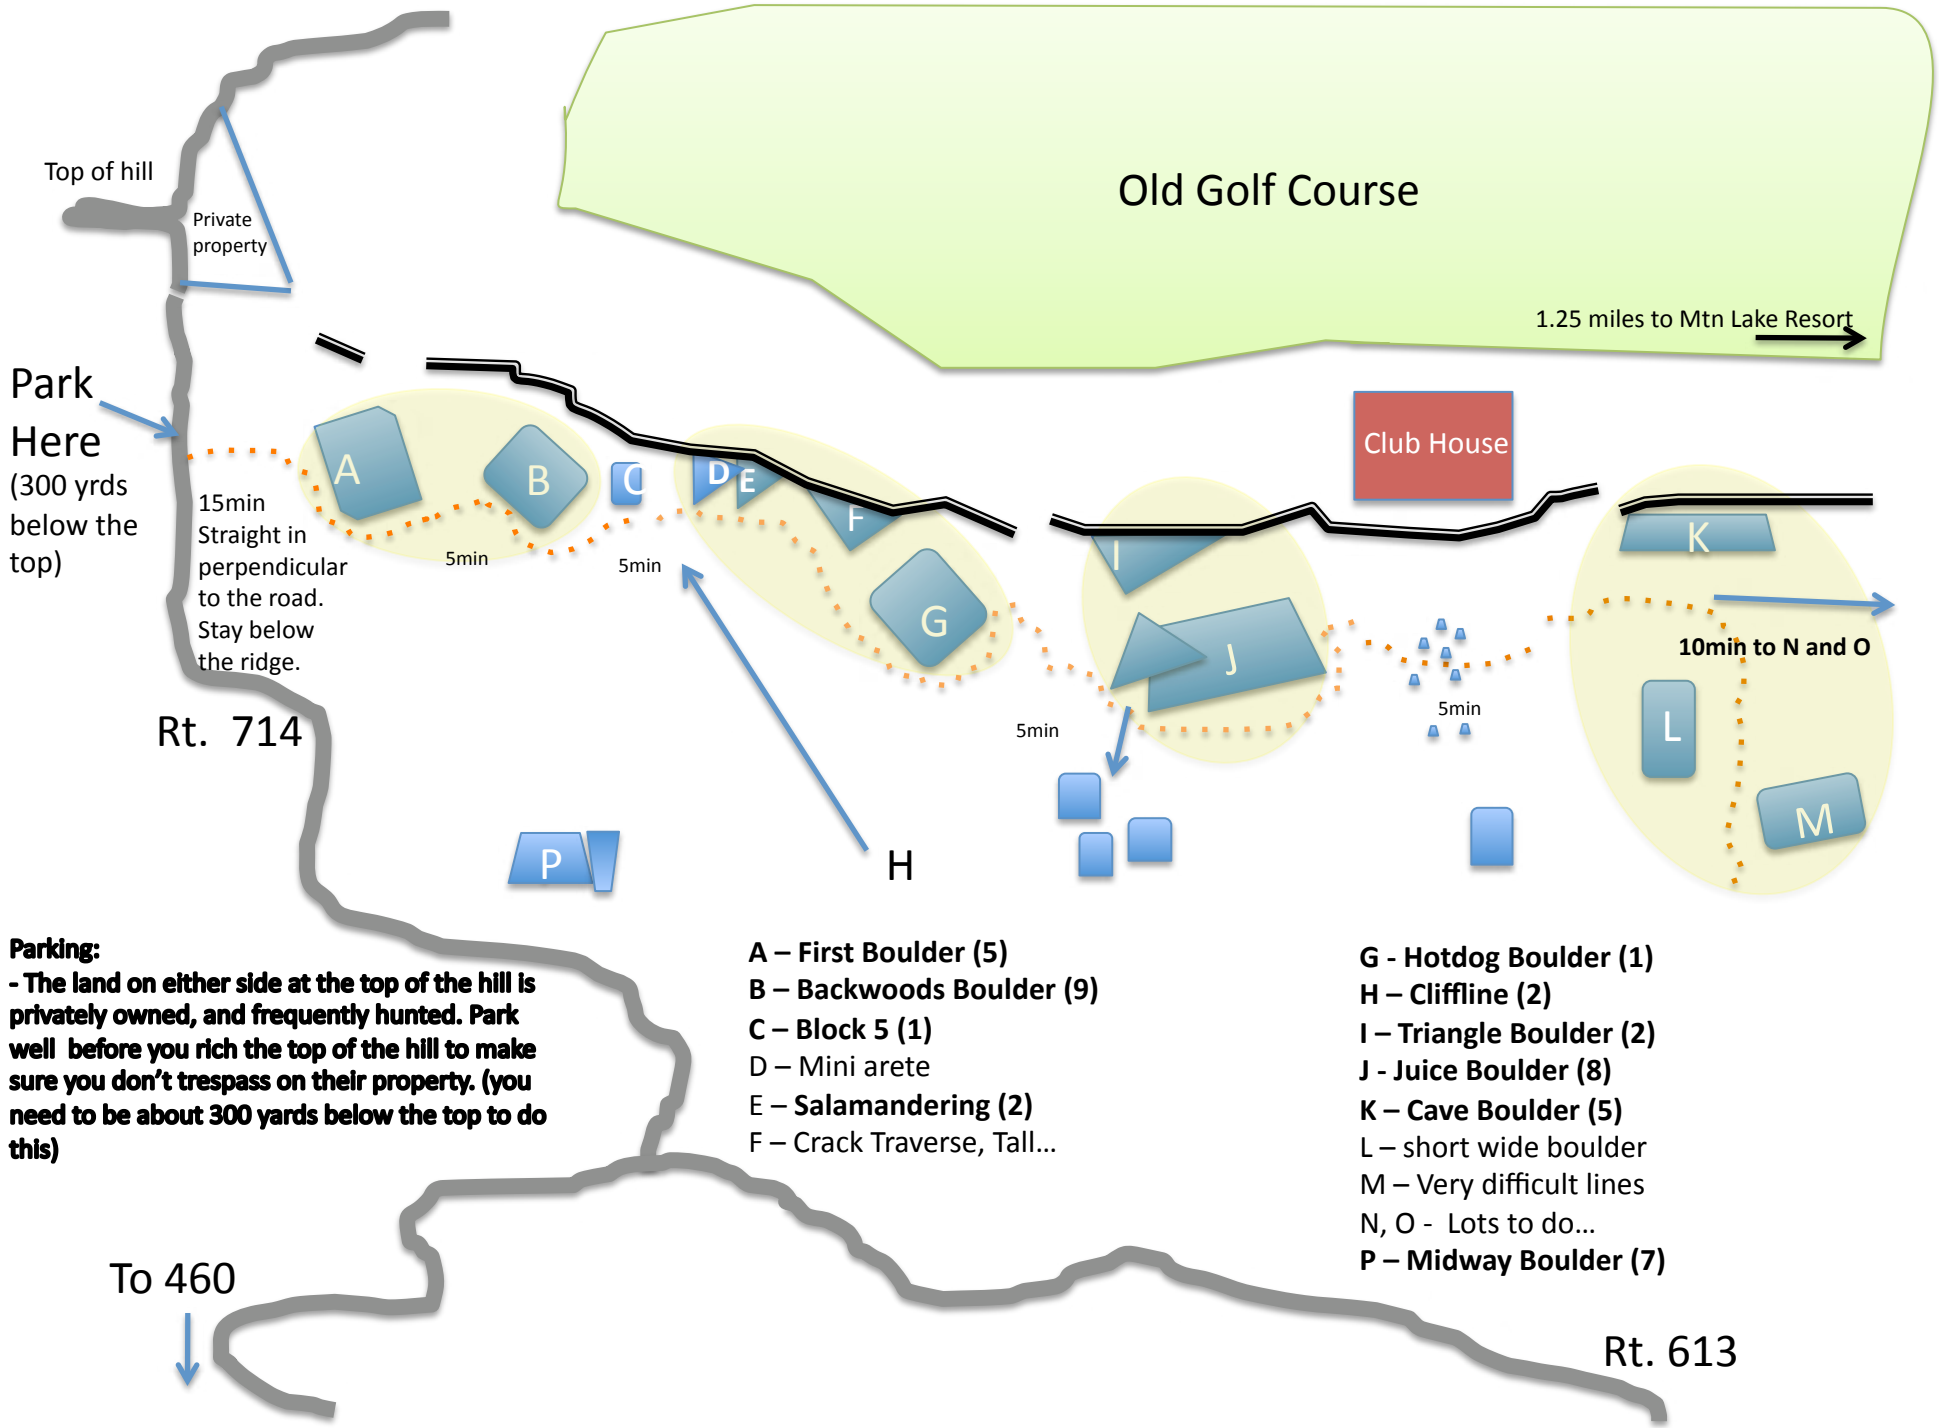
Mountain Lake Bouldering

Disclaimers:

- This are is currently **closed to climbing (2/17/2011)**. MLC staff are asking people not to boulder here until further notice.
- Please do not redistribute this guide
- If you choose to climb here please keep a low profile
- Grades - Most of the routes were established in the middle of the summer. So if your climbing on a cool 50 degree day and think things feel featherbagged… they probably are.



Parking:
- The land on either side at the top of the hill is privately owned, and frequently hunted. Park well before you rich the top of the hill to make sure you don't trespass on their property. (you need to be about 300 yards below the top to do this)

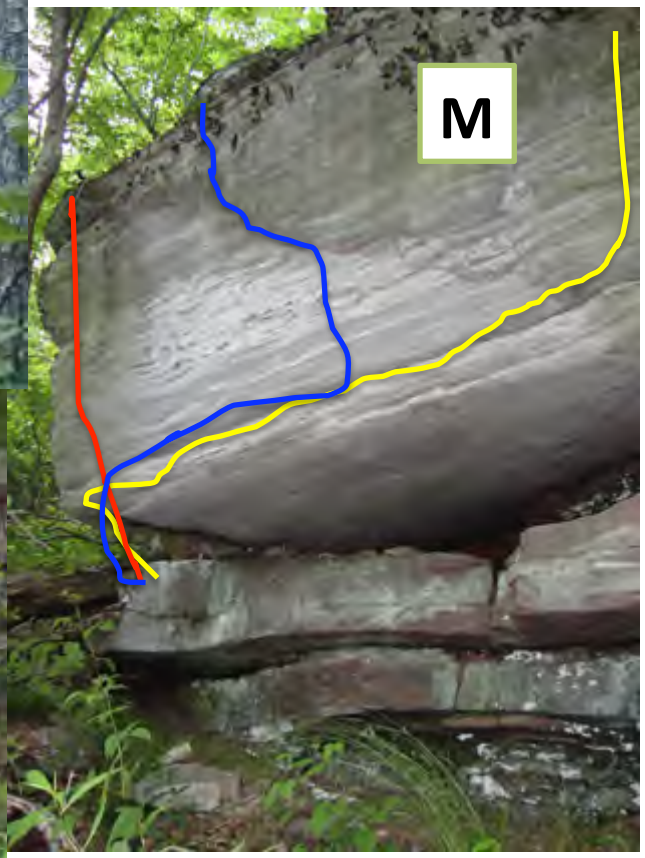
Cave Pop V5*
Project
Cave Route V4**
Cave Pop left V5
Cave Crack V5
Project (red)
Parlier traverse
V3/4 (pruple)

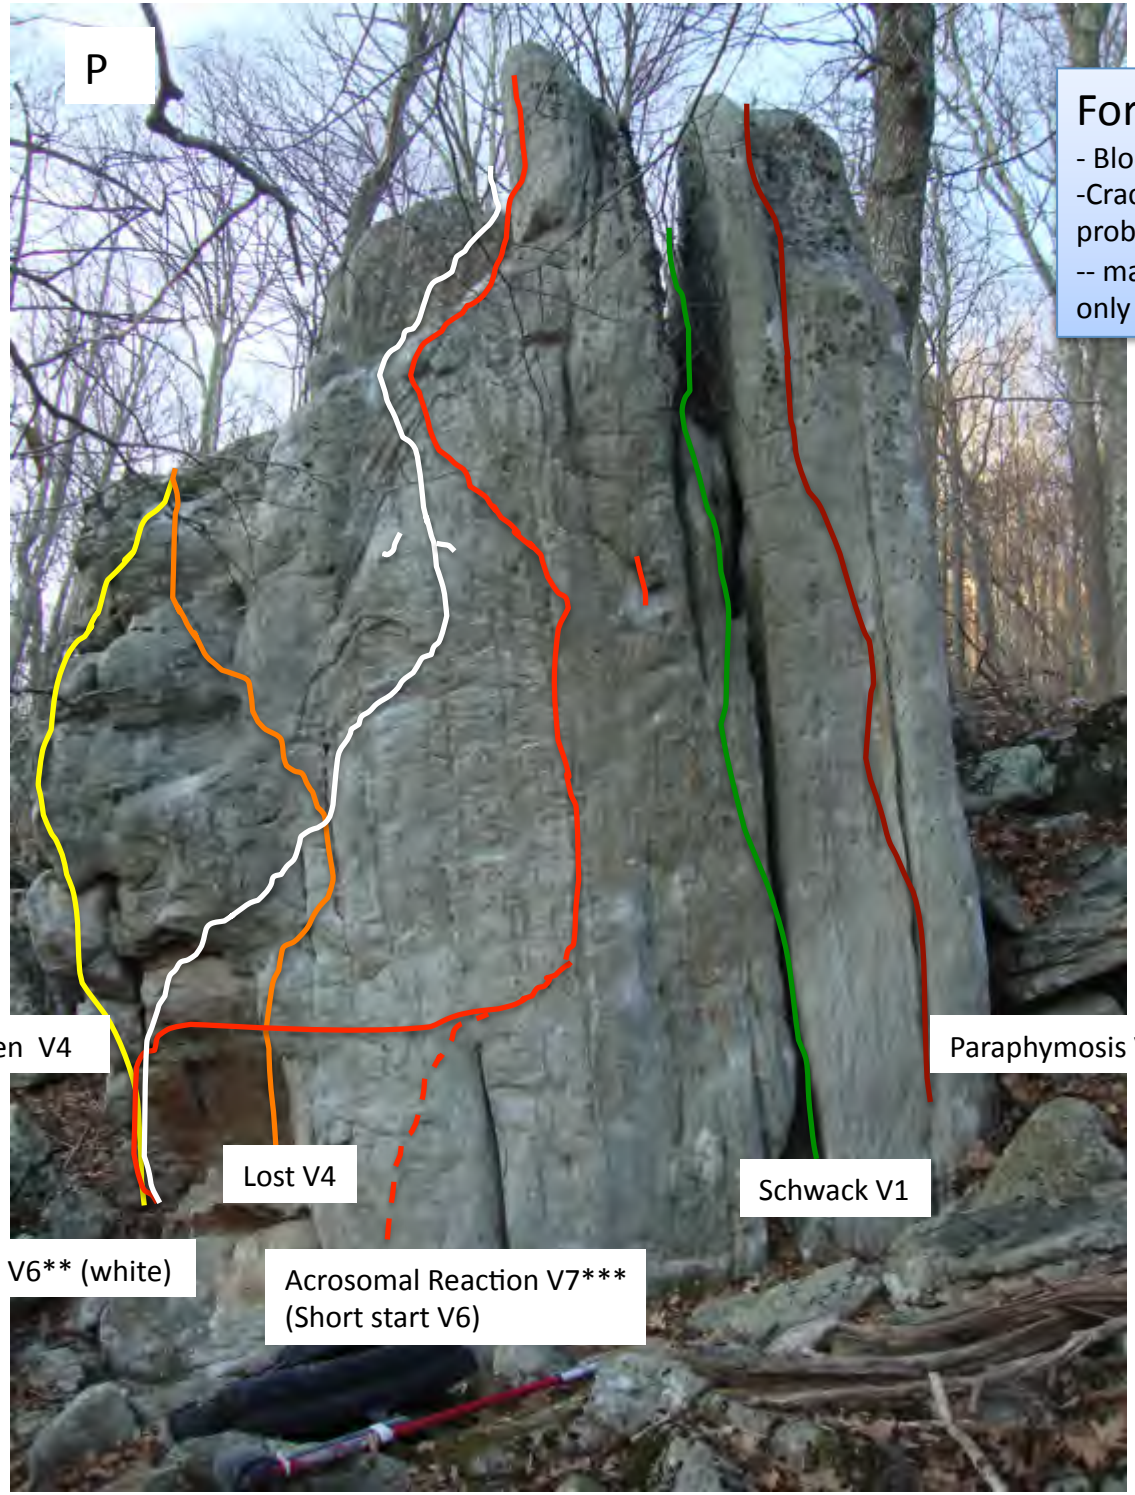
L



M

N

O



For full value:

- Block at base of roof on left is 'off'
-Crack is off for the right arete problem
-- many eliminates could exist I listed only the ones I have done
